FOR IMMEDIATE RELEASE – June 30, 2017

U-Konserve® Introduces New Insulated Stainless Steel Wine Glasses

SCOTTSDALE, AZ (June 30, 2017)—U-Konserve, a pioneer provider of reusable food-storage products for home and on the go, introduced today their new and exclusive insulated stainless steel wine glasses with sip-through lids. In stock and ready to order, the new sustainably designed travel tumblers offer another convenient solution for the conscious consumer looking for stylish reusable options with key benefits:

- **Double-walled for hot and cold beverages**—Keep hot tea, freshly brewed coffee and hot cocoa warmer longer, and keep iced cocktails, chilled wine and iced tea cold while sipping.
- **Durable, unbreakable stainless steel**—Long lasting and the ideal shatterproof solution for outdoor dining, camping, beach days, boating and poolside—without the worry of breakable glass.
- **Practical, functional design**—Sleek and stylish design, dishwasher-safe, comes with a drink-through lid, and replaces wasteful plastic alternatives. Exterior stays condensation-free and room temperature when filled with hot or cold beverages.

“We saw a need for eco-friendly tumblers with versatility: they fit right in at a winery or five-star resort, as well as a backyard party, on a family picnic or tossed in a backpack for a weekend hike,” says Chance Claxton, U-Konserve’s Co-Founder. “Pair with a bottle of wine for a perfect gift!”

About U-Konserve®

U-Konserve offers durable, safe and reusable food-storage solutions for the whole family. Products include stainless steel containers, glass bottles, lunch totes, reusable wraps and stainless steel straws. The products make ideal food-storage solutions for lunches, work, travel, picnics, takeout and leftovers. U-Konserve is a certified B Corporation and a member of 1% for the Planet. As a mission-driven company, they are committed to reducing waste, inspiring stewardship and operating a healthy business with integrity and responsibility.
